

# TTIR1

## Functions and features:

### Functionality

The TTIR is a weekly portable or wall mounted programmer, it allows you to adjust the temperature through a range of 10°C to 30°C in steps of 0.5°C. It displays both the current time and temperature as well as the set temperature. The TTIR allows you to set an economical and a comfortable temperature level controlled in two modes, manual and automatic. You are able to manually calibrate the temperature sensor of the TTIR if required.

### Timer and Dryer

The weekly timer function allows you to program your desired 'heating timed

profiles' in certain modes throughout the 7 days of the week. There is also a dryer function that allows a timed operation of 15 minutes to 4 hours.

### Remote control

The TTIR works wirelessly with a range of Terma heating elements and controllers that are equipped with an IR receiver (ONE & KTX 4). The TTIR can control multiple heating elements in one room.

### Intelligent Building Systems

The TTIR is battery powered device and does not require an external power supply.

### Safety

TTIR is equipped with a frost protection mode (ANTIFREEZE) to protect the radiator from the effects of freezing.

### Design

An elegant white body gives the TTIR a modern look and provides the perfect backdrop for an elegant amber display

### Colour

The device is available in white.

Power	Communication module	Casing ingress protection	Colour	Code
2 x LR03 (AAA)	IR	IP 30	WHITE	TGRTBI001
